RAIN GARDENS

~ TREE SEEDLINGS ~

1. White Pine
2. White Spruce
3. Colorado Blue Spruce
4. Norway Spruce
5. Balsam Fir
6. Fraser Fir
7. Abelia
8. Azalea
9. Beach Plum
10. Lilac
11. Mtn Laurel
12. Pussy Willow
13. Red Bud
14. Rhododendron
15. Rhododendron Rangoon
16. Sweetshrub
17. Japanese Maple
18. Arctostaphylos
19. Elderberry
20. Holly Female
21. Holly Male
22. Northern Bayberry
23. Winterberry

~ BERRY PRODUCERS for THE BIRDS ~

18. Arctostaphylos Mass. Hybrid
19. Elderberry
20. Holly Female
21. Holly Male
22. Northern Bayberry
23. Winterberry

~ PERENNIALS ~

28. Wild Nodding Onion
29. Windflower
30. Aster
31. Clematis
32. Swamp Milkweed
33. Butterfly Milkweed
34. Marsh Marigold
35. Leadwort
36. Turtlehead
37. Bleeding Heart

A rain garden is a landscaped shallow depression designed to capture, absorb, and filter the first inch of stormwater runoff from a roof, driveway, or road, filtering out pollutants such as oil, pesticides, fertilizers, and sediment. The plants and soil hold the water in place until it is able to infiltrate, recharging groundwater and reducing local flooding. Flowering native plants will boost property values and attract native birds and pollinator insects.
